### Exhibition: Forest Dreaming

Part 1. Sat 15 April – Sun 21 May  
Part 2. Sat 10 June – Sun 16 July

The experience of entering a forest stimulates our imagination and sharpens all of our senses. The feelings it can evoke can range from ones of fear and mystery to those of enchantment and wonder.

This year-long, evolving exhibition will show work by over 50 artists who have responded in different ways to the forest environment. It is organised in 8 parts and has been researched in consultation with curator Angela Kingston and with the help of Stuart Arnold, a student at Bath Spa University.

### Dendros: horizons of change

From Saturday 15 April until the work biodegrades

'Dendros' (from the Greek for 'tree') is an installation along one of the forest trails by conservationist and artist Dave Pritchard which explores timescales of environmental change, as viewed through our relationship with trees. The project has been organised in association with Research in Art, Nature and Environment at University College Falmouth. See [rane.falmouth.ac.uk](http://rane.falmouth.ac.uk)  
Directions available from the Project Space.
